About Us

Almería, the European hollywood with its unique landscapes, was the beginning of **Macamino's**.

Backed by our experience in the world of film and tourism, we decided to create a service related to these two facets of our lives.

We love this land Almería that offers so much beauty, we decided to create Malcamino's. On it we put our effort and we hope to share with you.

Plácido

Cristina

(click on Picture for more information)

Malcamino's team consists of guides specialized in environmental interpretation.

We offer hiking trails and 4x4 in natural environments, event management services and incentives, making available to associations, businesses and other organizations a range of leisure activities to develop in original and unique spaces.

Malcamino's audiovisual work is based of support for filming: We offer film location services and manage film permits.
